

## Proton Therapy Physics Assistant, Associate, or Full Project Scientist

The Department of Radiation Medicine and Applied Sciences (<http://radonc.ucsd.edu>) within the School of Medicine at the University of California, San Diego, is committed to academic excellence within the faculty, staff, and student body and is seeking Assistant, Associate, or Full Project Scientists to join the Chang Lab.

The Project Scientists will make significant and creative contributions to a research or creative project in their academic discipline. Under the supervision of the Principal Investigators, the Project Scientists will function independently, and the role includes:

- 1) designing, managing, and conducting experiments;
- 2) training and teaching students and others in the field of study;
- 3) leading and making innovative and significant contributions to the project(s);
- 4) participating and presenting at scientific meetings;
- 5) writing scientific reports, manuscripts, and grants for submission and/or publication.

Candidates must have a PhD or equivalent degree in Medical Physics, Computer Science, Machine Learning, Artificial Intelligence, or a related field.

Candidates with a minimum of two years of demonstrated experience in radiation oncology physics, proton therapy, inverse optimization, reinforcement learning, and deep learning are preferred.
